NATIONAL UNION NOMINATIONS.

For President,
ABRAHAM LINCOLN,
Of Illinois.

Of Tennessee.

H GRIFFIN, of Clackamas County;

The Democratic Way of Saving the Union

Did we refuse confidence in the assertions of 'democratic' orators and writers we should be convinced that the first of preserving the Union was, at the beginning, of the war and carrying the Democracy, they do say, would have done the business more effectually than the same has had the government dealt more tenderly and gently with the excited people of the South; there would have soon been a return to peace and reason and the calamities of war then none would so much as 'Democrats' die, would have been averted.

But men of intelligence cannot fail to remember that the rebels succeeded in withdrawing from the Union and organizing the rebellion solely because the preceding Administration (the 'democratic' one) so 'appeased' them. Had the 'democratic' party been allowed to carry out its policy of appeasement, the Union would have been dissolved peaceably, and the 'great men' of the rebellion would have been the great men of the United States. Slavery would have been established as the chief corner-stone of the Union, and the 'democratic' party would have been in power to-day, and for years to come, as the party of the Union. Slavery at least, will be maintained and perpetuated, and the 'great men' of the rebellion, save in a 'constitutional' 'democratic' way, will be prevented.

According to the 'democratic' faith and the 'democratic' method of interpreting the Constitution, the only distinct and objectionable feature of that instrument is its somber color. The provisions of the Constitution that refer to slavery, and the only ones of which 'democrats' retain a distant recollection. Hence they agree that if the inviolability of the Constitution be preserved in that particular the instrument cannot suffer any material infringement. We now see why they imagine the rebels have done nothing contrary to their constitutional rights since their efforts have been directed to the sole purpose of saving Slavery, while their opponents are determined to destroy it. And since in the estimation of "democrats," the Constitution is of no value, only in so far as it upholds the slave system, the remainder of the Union, as a matter of course, naturally follows, *nem con*. The South is fighting for the Constitution as much as the Indians are.

The urgent cry of "democrats" now is "Save Slavery, and you stop the war and restore the Union." Men of independent thought however see that although Slavery was the cause of the conflict, yet the war has wrenched a point where it exists *independent of Slavery*. It is not now a question whether the air of the nineteenth shall be permitted to longer exist for it is now in the throes of death; and no human arm can save it; but the real issue is, shall the South maintain the independence it has attained and to which the people declare they will never relinquish the things or shall they be *compelled* to resume their duties as citizens and return to the Union they have attempted to destroy?

To the sentiment of the last question every loyal man of candor must response — Yea and Amen.

Letter from Auburn

AUBURN, BAKER CO., OREGON, }
September 15th 1864. }

HON. SAMUEL COLE, DEAR SIR — I will write you a few lines from the land of the living to let you see that we are alive, and have been about since you left us or rather we are all engaged in our usual occupations. Very few changes have occurred. The water is the same as when you left, hence the amount of gold taken out is much the same accordingly. The flume is now in operation on French Gulch and Willow Creek, and is a general thing the miners take every day all told that enter the claims from their flumes is due to the high, fine stream. Their claims are very extensive, and will require two years to work them out. The miners have expended a large amount of money and labor in constructing them, and are now in a fair way to recover it. Harvest and Powell Creek are also doing a fair business. Messrs. Hall & Bacon, Clark & Cook and Barnes & Co. are also well and are located with their properties, so as to get their claims water on their flumes.

I am sorry to inform you that the company will be able to get out of the ditch only about one season, as the Middle Creek Company is hurrying up the mill, and will be able to commence operations some time before the 1st of October. The mill is being built of stone, and will be a large and substantial building. It is reported that Mr. Chapman, of the Chapman & Ladd Bank of Portland, is of the company, and that he has sent up a large amount of money to have the mill completed. I am told that there will be a road built from the mill to the ditch, so as to haul the rock to the mill. The mill will soon be running, when some time in the month of October the company will commence taking out the gold. The ditch is now in good condition, and will be kept in repair by the company. The water is let on the claims at the rate of one inch to the square foot, and the claims are measured by the square foot. The claims are generally 100 feet square, and are worked by the square foot. The claims are generally worked by the square foot. The claims are generally worked by the square foot. The claims are generally worked by the square foot.

Mr. Chapman said he would take good care of the ditch, and would keep it in good condition. Mr. Chapman said he would take good care of the ditch, and would keep it in good condition. Mr. Chapman said he would take good care of the ditch, and would keep it in good condition.

FURTHER TESTIMONY.—Talk as all ingenious docs and people here, and elsewhere, know best about Columbia country, its richness in mineral wealth, and its resources as an agricultural and grazing country, that would be incredible. One thing is certain the people in those regions have energy to do, and they keep at work, making but very little noise, while their claims to a uniformly are almost untiringly reported by the press. Nearly all the eastern slope of the Blue Mountains and Rocky, stand unrivaled in richness and extent of placer mines, and quartz, of gold and silver. There never was a country that offered more remuneration than this country, for an outlay of capital, and it would still seem doubtful if a country can be found, for which capital has done more with all its inaccurate. We shall, in due time, with all its ignorance, for any will have to the trouble to post themselves must know its advantages, notwithstanding the designs of those allies as a representative of the people from Lake county.

RELIEF FOR IMMIGRANTS.—A case came to our attention last evening, that is recommended to the charitable people of this city. A widow and immigrant has arrived in destitute circumstances with several children. She is at present stopping at the Temperance House, on Front street. At present she is joyful easy, and one calculated to call forth sympathy in the hearts of every brother of destitute. In this connection we notice relief societies being formed at the Dalles, for destitute soldiers settling this way, and it is thought by the Secretary that the Legislature may very properly appropriate a few dollars to aid in such a worthy cause, as it is possible, as many for these distresses, as it is possible, as declaring "that Lincoln bayonets any shoulder for cold-blooded murder," was in the office were these papers were found.

DISTRESS IN SANTA BARBARA.—The San Francisco Call states that owing to the drouth which has prevailed in Santa Barbara county, California, for the past two years, nearly all the cattle and sheep have died, the crops entirely failed, and the people are not only poor but starving. Men, women and children are hungering for bread. Many of them are almost entirely naked, and great distress prevails throughout the county. The Call asks for aid for food, for assistance, to stay the gnawings of hunger and clothe the naked. Generous California was never known to turn a deaf ear to the cry of distress.

EARTHQUAKE AT VICTORIA.—The *Colonist* of the 7th ult. says: "Yesterday morning, about a quarter to nine o'clock our good citizens were aroused from their slumbers, by a rather severe shock of an earthquake, doors and windows kept upon rattling for 10 or 12 seconds, and a vibrating motion of the earth was plain distinctly felt. Pots and pans took alarm and set up a midnight concert. Another slight shock was felt by some people between 5 and 6 in the morning."

The Ladies' Sanitary Aid Society will meet this (Tuesday) afternoon at 3 o'clock, in the Vestry of the Baptist church.

A Greenback Case.

HAVING been compelled to accept of Legal Tender Notes at par since the 17th day of December, 1862, for the rent of my handsome Brick Store, corner of Morrison and Front streets, I feel compelled to announce for the benefit of the public at large, that

Jacob Mayer

Leased the building of me on the 17th day of February, 1862, for a term of years, at which time there was no such currency in vogue, and it was understood the rents were CASH. Since the date above stated I have received the depreciated currency, simply under protest, for the rent of the

CITY OF PARIS STORE,

Making less than two-fifths of the real amount said Mayer was to pay. He has secured the building at a gratuitous rate, and even went so low to obtain it with his contract, and pay me 220 in gold, would be returning a best bargain for the times. I make this statement to show the public what kind of a man he is, by his taking advantage of the times to convert a few dollars to himself by LEGAL SHINDLING. The public can readily see what it costs to trade such chaps.
